EDUCATION

Amity University Madhya Pradesh

Bachelors of Technology in Computer Science and Engineering

CGPA: 8.24

Gwalior, M.P

Aug. 2022 – July 2026

EXPERIENCE

Prompt Engineer Intern

TensorGo Software Pvt Ltd.

Sept 2025 – Dec 2025

Hyderabad, Telangana

- Engineered and optimized 30+ prompts for Gemini and Groq LLMs, improving response accuracy and consistency across multiple AI use cases.
- Built enterprise-grade AI workflows using n8n with Gemini API and LLM integrations for automation.
- Applied zero-shot, few-shot, and prompt chaining strategies across 10+ AI workflows, improving response reliability and reducing prompt iterations.
- Conducted prompt evaluation and optimization for 25+ test cases to ensure production-ready AI outputs.
- Collaborated with a cross-functional team to deliver 5+ AI automation workflows for enterprise use cases.
- Built 4+ Generative AI Proof-of-Concepts (POCs) using Gemini and Groq LLMs for workflow automation and enterprise use cases.
- Researched and evaluated 20+ AI models, frameworks, and APIs to identify suitable solutions for client requirements.

PROJECTS

RecruitFlow AI – AI Hiring Automation System | *HTML, CSS, JavaScript, Bootstrap, n8n, Gemini AI*

- Built an AI-powered recruitment platform with role-based job applications and resume uploads.
- Streamlined the hiring workflow using n8n, including webhooks, Google Sheets, and Gmail notifications.
- Built a responsive frontend and integrated end-to-end recruitment automation.
- Integrated Gemini AI for AI-powered resume screening and candidate shortlisting.
- Developed an AI-powered hiring Proof-of-Concept (POC) for resume screening and candidate shortlisting.

Smart AI Resume Ranker | *Python, Streamlit, Pandas, pdfplumber, python-docx*

- Built an AI-powered system to automate resume screening and candidate ranking based on job descriptions
- Parsed PDF/DOCX resumes to extract key details like skills, experience, and contact information
- Designed a weighted scoring algorithm (skills, experience, education, location) for ranking candidates
- Designed keyword and partial matching to compare resumes with job requirements
- Created an interactive dashboard to display ranked candidates efficiently

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C++, HTML, CSS.

Generative AI: ChatGPT, Gemini, Groq, Prompt Engineering, LLMs, RAG, LangChain, LlamaIndex.

AI Automation: n8n, Workflow Automation, Webhooks, API Integration.

Framework and Libraries: TensorFlow, PyTorch, Keras.

Developers Tools: GitHub, VS Code, Docker, Jupyter Notebook.

Database knowledge: MySQL.

Operating System: Comfortable with Windows.

CERTIFICATIONS

- CLA: Programming Essentials in C** from Cisco Networking Academy.
- SQL Concepts & Queries** from Infosys Springboard.
- Database Fundamentals: Database Concepts** from Infosys Springboard.
- Java Online Course** from GeeksforGeeks.
- Complete Web Development Course** from Udemy.
